

Great War At Sea, Jutland

Tactical Deployment Sheet

Place ships in the 'Not fired' box prior to firing, re-placing them back in this box once all have fired. The stacking order of a Group is fixed with the top ship of the stack at the head of the column and the bottom ship of the stack at the tail of the column. Retain the same deployment as was depicted on the Tactical Map.

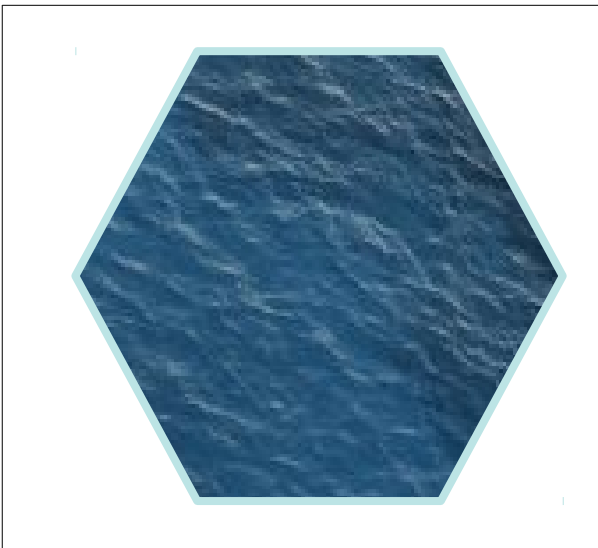

Side: Royal Navy

Battle Hex

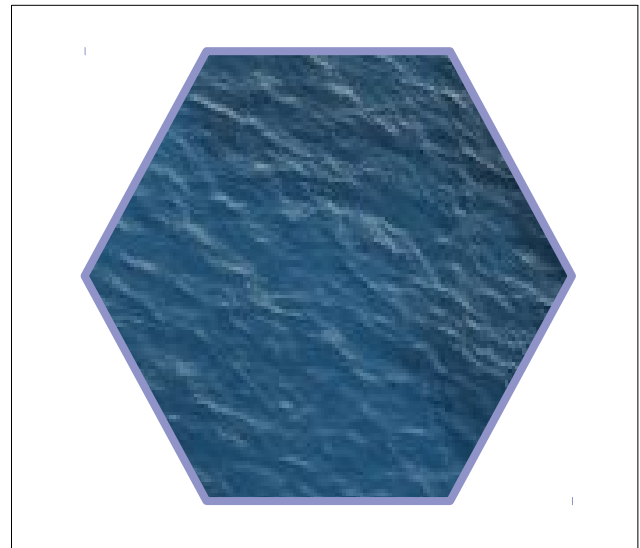

Place a D6 here & on map to ID position

Group E

Not fired

Fired

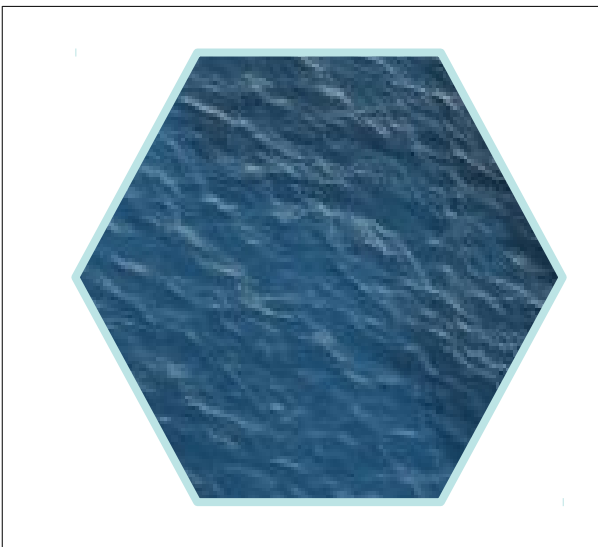

Battle Hex

Place a D6 here & on map to ID position
